----------------------	-----------------------------------	-----------------------------	----------------------------------	--------------------------------------	-----------------

Twitch Rivals Recommendations:

1. Fall Ball always precedes the Final round. If you get to Fall Ball, know that winning guarantees a spot in the finals.
2. Tip Toe always precedes either Fall Ball or the Final round. Twitch Rivals team should develop a strategy to ensure as many teammates as possible qualify.
3. Block Party and Tip Toe are the two lowest non-Team modes by win percentage. Focus should be prioritized on excelling in these modes during Twitch Rivals.
